

IONUT-MARIUS DUTAN

Support Product Manager | QA Specialist | IT Operations Leader

Bucharest, Romania | +40 735 566 650 | dutanionut@gmail.com | <https://www.linkedin.com/in/dutanionutmarius>

PROFESSIONAL SUMMARY

Support Product Manager, QA-focused service transition specialist and IT Operations Leader with 15+ years of experience across product onboarding, release readiness, global support operations and enterprise endpoint support. Connects Product, Engineering and Support to make services support-ready before launch, owning Jira-based transition governance, RACI accountability, knowledge readiness, training and AI Service Desk compliance. Hands-on expertise spans Windows, macOS, Oracle EMP, VMware Workspace ONE, endpoint security, incident/problem management, root-cause analysis, KCS knowledge management and support automation.

SELECTED ACCOMPLISHMENTS

- Led end-to-end onboarding and transition of services into Support, aligning documentation, tooling, training, support model, operational readiness and go-live requirements.
- Owned Support Transition Jira/ALM governance, including milestone tracking, RACI accountability, risk visibility and executive-level status updates.
- Identified top support volume drivers and partnered with Engineering on root-cause fixes, documentation improvements and automation initiatives supporting a targeted 30% support volume reduction strategy.
- Developed Batch/Shell automation adopted by Endpoint Engineering, reducing troubleshooting time by approximately 30% and improving support efficiency.
- Contributed to Oracle EMP rollout, product validation and service transition, improving support readiness and reducing post-launch issues.
- Led 100+ global engineers, improving operational consistency and performance.
- Provided 100% feedback contribution in all Endpoint Engineering product validation activities, surfacing product enhancements that reduced service disruptions and support interactions.

CORE SKILLS

Service & Product: Service Transition, Product Onboarding, Support Readiness, Release/Go-Live Management, Jira ALM, RACI/Governance, Stakeholder Management, Product Feedback

QA & Support Operations: Pre-production Testing, QA Validation, Defect/Risk Identification, Incident Management, Problem Management, Root Cause Analysis, SLA/KPI/CSAT, Major Incident Escalation

Knowledge & Automation: KCS, KDE, AI Service Desk/GenAI Readiness, Knowledge Quality, Self-Service Enablement, Batch/Shell Scripting, Process Improvement

Technical: Windows, macOS, Oracle Enterprise Management Platform (EMP), VMware Workspace ONE, BitLocker, Endpoint Security, McAfee/Trellix, Cybereason, CrowdStrike

Tools: Jira, Jira Service Management, Confluence, ServiceNow, Slack, Microsoft Teams, Microsoft 365, Zoom

PROFESSIONAL EXPERIENCE

Support Product Manager | Oracle Romania | Bucharest, Romania | Apr 2025 - Present

- Lead end-to-end service onboarding and transition into Support, ensuring readiness across documentation, knowledge, tooling, training and operations.
- Own Support Transition Jira (ALM), tracking milestones, risks, dependencies and RACI accountability while providing executive-level status updates.
- Coordinate Service Owners, Product Managers, Engineering and Support Leadership to deliver support readiness, knowledge readiness and AI Service Desk compliance.
- Drive Top 10 issue intake with Engineering to address root causes, improve product quality and reduce support demand.
- Perform pre-production testing, validation and release readiness checks to identify risks early and reduce post-launch escalations.

Senior IT Support Engineer | Oracle Romania | Bucharest, Romania | Sep 2023 - Present

- Deliver Tier 2/3 support for Windows, macOS, Oracle EMP, VMware Workspace ONE, BitLocker and endpoint security technologies including McAfee/Trellix, Cybereason and CrowdStrike.
- Serve as SME for endpoint management and macOS escalations, collaborating with Endpoint Engineering swarm channels on complex incidents.
- Automate knowledge workflows and troubleshooting steps through Batch/Shell scripting, reducing resolution effort and improving support consistency.
- Maintain KCS and GenAI-ready knowledge content, improving self-service success and reducing dependency on live support.
- Mentor new engineers through buddy/coaching programs and improve onboarding efficiency and team capability.

Team Lead, EMEA IT Support | Oracle Romania | Bucharest, Romania | Jan 2023 - Jan 2025

- Led 5x24 EMEA support operations, task delegation, queue flow, performance metrics and SLA compliance.

- Acted as escalation lead for major incidents and coordinated timely resolution across support groups.
- Proposed operational improvements and coached engineers on quality, communication, ownership and process discipline.

IT Support Engineer | Oracle Romania | Bucharest, Romania | Aug 2021 - Sep 2023

- Delivered L1/L2 support for Oracle employees, including incident resolution, customer escalations, quality assurance and accurate ticket documentation.
- Analyzed, validated and documented interruptions or reductions of IT services as part of the incident management lifecycle.
- Escalated potential system issues through standard procedures and provided feedback on support processes and service quality.

Premium Services Delivery Engineer (24/7) | Bitdefender | Bucharest, Romania | Oct 2019 - Aug 2021

- Delivered premium remote IT support including upgrades, configuration, security policy setup and malware remediation for global customers.
- Managed helpdesk workflows, ticket updates and SLA compliance while troubleshooting Windows/macOS, hardware, network and operating system issues.

Engineer | PCZONE Online Distributie SRL | Bucharest, Romania | Jan 2014 - Oct 2019

- Performed technical maintenance and repair for IT equipment and systems, managed service workflows and tracked customer repair processes.
- Provided customer support and technical guidance for hardware/software issues, inventory, invoicing and basic accounting operations.

Senior IT Technician | Taurus Group SRL | Bucharest, Romania | Feb 2010 - Jan 2014

- Maintained internal IT infrastructure and company computer networks, ensuring system stability and performance.
- Tested software applications, documented bugs and collaborated with development teams on improvements and fixes.

IT Support & Technical Assistance | Forst Kron SRL | Brasov, Romania | Oct 2009 - Feb 2010

- Provided basic hardware, software, network and workstation support; installed and configured operating systems and office applications.
