IONUT-MARIUS DUTAN

Support Product Manager | Technical Support Engineer | QA Specialist | IT Operations Leader

Bucharest, Romania | +40 735 566 650 | dutanionut@gmail.com | linkedin.com/in/dutanionutmarius | ionutmariusdutan.github.io

PROFESSIONAL SUMMARY

Support Product Manager, QA-focused service transition specialist and IT Operations Leader with 15+ years of experience across product onboarding, release readiness, global support operations and enterprise endpoint support. Connects Product, Engineering and Support to make services support-ready before launch, owning Jira-based transition governance, RACI accountability, knowledge readiness, training and AI Service Desk compliance. Hands-on expertise spans Windows, macOS, Oracle EMP, VMware Workspace ONE, endpoint security, incident/problem management, root-cause analysis, KCS knowledge management and support automation. Early-career background includes public tender coordination and IT distributor relationships.

SELECTED ACCOMPLISHMENTS

- Enabled self-service Windows password recovery solution for 112K devices, reducing recovery time by approximately 90% (from 56 minutes to 5 minutes) and eliminating routine agent-assisted resolution for approximately 1,200 monthly lockout tickets.
- Developed Batch/Shell automation tools later integrated into Endpoint Engineering daily workflows, reducing troubleshooting time by approximately 30% and improving support efficiency.
- Delivered critical Data Protection security controls across the Oracle fleet under compressed P0 timelines, strengthening enterprise data protection, endpoint safeguards, compliance readiness, and Oracle's overall security posture through strong ownership and cross-organizational collaboration.
- Led end-to-end onboarding and transition of services into Support, aligning documentation, tooling, training, support model, operational readiness and go-live requirements.
- Owned Support Transition Jira/ALM governance, including milestone tracking, RACI accountability, risk visibility and executive-level status updates.
- Identified top support volume drivers and partnered with Engineering teams on root-cause fixes, documentation improvements and automation initiatives supporting a targeted 30% support volume reduction strategy.
- Contributed to Oracle Endpoint Management Platform (EMP) rollout, product validation, training and service transition, improving support readiness and reducing post-launch issues.
- Led 100+ global engineers, improving operational consistency and performance.
- QA testing and validation in all Endpoint Engineering product release activities, surfacing product enhancements that reduced service disruptions and support interactions.
- Coordinated and won a public tender (SEAP) for a mixed hardware and maintenance services solution, working directly with IT distributors on pricing and availability.

SOFT SKILLS

Cross-functional collaboration, Stakeholder management, Mentoring & coaching, Adaptability, Ownership & accountability, Process improvement mindset

CORE SKILLS

- **Service & Product:** Service Transition, Product Onboarding, Support Readiness, Release/Go-Live Management, Jira ALM, RACI/Governance, Stakeholder Management, Product Feedback
- **QA & Support Operations:** Pre-production Testing, QA Validation, Defect/Risk Identification, Incident Management, Problem Management, Root Cause Analysis, SLA/KPI/CSAT, Major Incident Escalation
- **Knowledge & Automation:** KCS, KDE, AI Service Desk/GenAI Readiness, Knowledge Quality, Self-Service Enablement, Batch/Shell Scripting, Python Scripting/Automation (Intermediate), Process Improvement
- **Technical:** Windows, macOS, Android, iOS, IT Hardware Support and Troubleshooting, Oracle Endpoint Management Platform (EMP), VMware Workspace ONE, Microsoft Intune, Entra ID, BitLocker, Endpoint Security, McAfee/Trellix, Cybereason, CrowdStrike, Bitdefender
- **Commercial & Procurement:** Public Tender Coordination (SEAP), Technical Documentation, Pricing and Offer Preparation, IT Distributor Relationships
- **Tools:** Jira, Jira Service Management, Confluence, ServiceNow, Slack, Microsoft Teams, Microsoft 365, Zoom

PROFESSIONAL EXPERIENCE

Support Product Manager
Oracle Romania | Bucharest, Romania | Apr 2025 - Sep 2026

- Led end-to-end service onboarding and transition into Support, ensuring readiness across documentation, knowledge, tooling, training and operations.
- Owned Support Transition Jira (ALM), tracking milestones, risks, dependencies and RACI accountability while providing executive-level status updates.
- Coordinated Service Owners, Product Managers, Engineering and Support Leadership to deliver support readiness, knowledge readiness and AI Service Desk compliance.
- Drove Top 10 issue intake with Engineering to address root causes, improve product quality and reduce support demand.
- Performed pre-production testing, validation and release readiness checks to identify risks early and reduce post-launch escalations.

Team Lead, EMEA IT Support
Oracle Romania | Bucharest, Romania | Jan 2023 - Jan 2025

- Led 24/7 EMEA support operations for a global team of 100+ engineers, covering task delegation, queue flow, performance metrics and SLA compliance.
- Acted as escalation lead for major incidents and coordinated timely resolution across support groups.
- Proposed operational improvements and trained engineers on quality, communication, ownership and process discipline.

Senior IT Support Engineer
Oracle Romania | Bucharest, Romania | Sep 2023 - Apr 2025

- Delivered Tier 2/3 support for Windows, macOS, Oracle EMP, VMware Workspace ONE, BitLocker and endpoint security technologies including McAfee/Trellix, Cybereason and CrowdStrike.
- Served as Subject Matter Expert (SME) for Endpoint management and macOS escalations, collaborating with Endpoint Engineering swarm channels on complex incidents.
- Automated knowledge workflows and troubleshooting steps through Batch/Shell scripting, reducing resolution effort and improving support consistency.
- Maintained KCS and GenAI-ready knowledge content, improving self-service success and reducing dependency on live support.
- Mentored new engineers through buddy/coaching programs and improved onboarding efficiency and team capability.

IT Support Engineer
Oracle Romania | Bucharest, Romania | Aug 2021 - Sep 2023

- Delivered L1/L2 support for Oracle employees, including incident resolution, customer escalations, quality assurance and accurate ticket documentation.
- Analyzed, validated and documented interruptions or reductions of IT services as part of the incident management lifecycle.
- Escalated potential system issues through standard procedures and provided feedback on support processes and service quality.

Premium Services Delivery Engineer (24/7)
Bitdefender | Bucharest, Romania | Oct 2019 - Aug 2021

- Built a full end-to-end Python automation suite for Bitdefender QA for Windows, automating the complete product lifecycle including account registration, login, trial activation, security kit download, local installation, device verification via central.bitdefender.com, recursive file system audit (JSON output), active process inspection, OS/hardware metadata collection, malware URL blocking validation (HTTP requests and browser), and product uninstallation.
- Delivered premium remote IT support including upgrades, configuration, security policy setup and malware remediation for global customers.
- Managed helpdesk workflows, ticket updates and SLA compliance while troubleshooting Windows/macOS, hardware, network and operating system issues.

Engineer
PCZONE Online Distributie SRL | Bucharest, Romania | Feb 2015 - Oct 2019

- Coordinated end-to-end participation in public tenders (SEAP) for government institutions and municipalities, from requirements analysis and point-by-point technical documentation to pricing and submission, in line with the contracting authority's compliance requirements.
- Won a public tender for a mixed solution of hardware equipment and maintenance services over a set period.
- Negotiated pricing and availability with IT distributors (ALSO, Asbis, Network One Distribution) to build competitive technical and commercial offers.
- Performed technical maintenance and repair for IT equipment and systems, managed service workflows and tracked customer repair processes.
- Provided customer support and technical guidance for hardware/software issues, inventory, invoicing and basic accounting operations.

IT Technician
Taurus Group SRL | Bucharest, Romania | Jul 2010 - Feb 2015

- Maintained internal IT infrastructure and company computer networks, ensuring system stability and performance.
- Tested software applications, documented bugs and collaborated with development teams on improvements and fixes.

CERTIFICATIONS, TRAINING & AWARDS

- Oracle AI Database SQL Certified Associate - Oracle, July 2026 | Verify credential
- Oracle Fusion AI Agent Studio Foundations Associate - Rel 1 - Oracle, May 2026 | Verify credential
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate - Oracle, May 2025 | Verify credential
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate - Oracle, May 2025 | Verify credential
- Oracle Summit Award for FY26 - Oracle, July 2026
- Cisco IT Essentials - Cisco Networking Academy, July 2020
- Information Security Awareness Training - Bitdefender, Sep 2020
- Optimization with IBM ILOG OPL Workshop - IBM Linux Competency Center, 2014
- Intel Advanced Specialist - Intel
- Intel Technology Expert - Intel, 2015 and 2013
- Advanced English Skills Certificate - Ministry of National Education

EDUCATION

- Master's Degree, Automatic Control & Industrial Informatics - Faculty of Automatic Control and Computer Science, University POLITEHNICA of Bucharest | Completed July 2014 | 120 ECTS credits
- Bachelor's Degree, Economic-Industrial Engineering - Ecological University of Bucharest | Completed July 2012 | 240 ECTS credits
